# DENBIGH

**Reminder: No nuts in packed lunches due to nut allergies in school!!!**

What a great way to end the first half of yesterday morning. Rebecca from NUFC Foundation visited us to start working with us on a citizenship project. We were thinking about how rules are required to make a society work well and what skills are involved when working with and listening to others. We loved playing bingo!

Today the dinos have been exploring the different conditions in which plants grow. We searched for different plants around school then worked together to create a Pic-Collage to explain the conditions which the plants we found liked to grow in.

Year 3 Turtles have had a busy morning completing a weathering investigation. We learnt about how rocks are eroded and how the fragments of rock break off as the rock gets smaller! To show this on a smaller scale we put water inside water bottles and then shook them to act as the waves hitting the rocks.

Year 1 had another fantastic trip to Wallsend Park. We explored the changes from Autumn to Summer, created pieces of artwork with leaves and learnt all about different trees and how to identify them. Their behaviour was outstanding all day! Well done everyone.
